TORQTEK CLAMP CYLINDER

Fits Existing Breakout Machines

The TorqTek Clamp Cylinder is designed to deliver superior strength and reliability. All cylinders are dressed with superior quality seals and backed by a 12-month limited warranty.

Key features include:

- Available in two sizes – 14" and 18"
- Integral cylinder tube – no welds for increased structural integrity
- Tong die clamp head secured with 4 bolts for quick, easy removal
- Clamp head removable without taking out the tong die
- Large seal plate hex shaft minimizes piston twisting
- Oversized piston spigot provides solid clamp head support
- Seal hex plate locked with large bolts and a secure lock plate
- All cylinders undergo extensive cycle and pressure testing to ensure reliability
